

AMENDMENT TO THE CLAIMS:

This listing of claims will replace all prior versions of claims in the application:

Claims 1 – 14. (Canceled)

15. (New) A product of fibrous material imparting a sense of freshness when said product contacts skin, comprising at least in part on a surface of said product  $0.1 \text{ g/m}^2$  to  $20 \text{ g/m}^2$  of an agent comprising at least one fatty acid ester wherein a carbon chain of which is of C10-C14 and of alcohol a carbon chain of which is of C10-C14.

16. (New) A product of fibrous material according to claim 15, wherein the agent melts at a temperature in a range from  $20^\circ\text{C}$  to  $37^\circ\text{C}$ .

17. (New) A product of fibrous material according to claim 15, wherein the agent comprises at least 60% of said at least one ester, with a remainder being selected from solvents, fatty acid esters, fatty alcohols, or mineral oils.

18. (New) A product of fibrous material according to claim 15, wherein the agent comprises at least dodecylic ester of dodecanoic acid.

19. (New) A product of fibrous material according to claim 15, wherein the agent comprises between 75% and 40% by weight of dodecylic ester of dodecanoic acid.

20. (New) A product of fibrous material according to claim 15, wherein the agent is distributed substantially on the surface of the product.

21. (New) A product of fibrous material according to claim 15, wherein said product comprises at least 2 g/m<sup>2</sup> of said agent.
22. (New) A product of fibrous material according to claim 21, wherein said agent is less than 6 g/m<sup>2</sup>.
23. (New) A product of fibrous material according to claim 15, wherein the agent is distributed discontinuously over said product.
24. (New) A product of fibrous material according to claim 23, wherein the agent is distributed in strips parallel to each other over said product.
25. (New) A product of fibrous material according to claim 15, wherein the agent is distributed as a continuous film over said product.
26. (New) A product of fibrous material according to claim 15, wherein the agent is distributed over a top surface and a bottom surface of said product.
27. (New) A product of fibrous material according to claim 15, wherein the fibrous material comprises an absorbent paper.
28. (New) A product of fibrous material according to claim 15, wherein the fibrous material comprises absorbent cotton or a bonded web of natural, artificial or synthetic textile fibers.

29. (New) A product of fibrous material according to claim 15, wherein the fibrous material is of cotton or cotton in mixture with artificial or synthetic fibers.
